**Warning: The path from Grigoriou to Dionysiou is challenging. Pilgrims need to be careful, especially if not physically fit.**

This magnificent route connects the three monasteries of the rocks. It has special importance as it completes the SW route from *Megisti Lavra* which goes up to the ‘desert’ (*erimos* in Greek), and thence on to *Mount Athos Summit*, *Ag. Anna* and *Ag. Pavlou*, ending up at *Simonopetra*. This route is one of the most beautiful on all Athos, offering spectacular views down the western coast of the Athonite peninsula, Mount Athos summit and nearby *Sithonia*.

The first half, from *Dionysiou* to *Grigoriou*, is almost entirely on footpath. The views from the path are stunning, but the walk is much more difficult than the short distance between the monasteries might suggest. Pilgrims should be very careful. The second half, from *Grigoriou* to *Simonopetra*, starts with a stretch on an unattractive track, but then a nice path continues into the olive groves of the Monastery and parallel to the shore. Finally, ascending broad traditional *kalderimi* (stone paved path) leads from sea level to *Simonopetra* at over 200m.

**Note:** All distances given (in metres) should be taken as approximate. The numbers shown in the form **1** are Waypoints to be found in associated GPS tracking. The route described is liable to unpredictable change: for example, forestry work, road or track construction and plant growth may alter the route, or its appearance. Signposts may disappear or new ones appear. The Friends of Mount Athos strives to keep this description correct and up to date but cannot take responsibility for its accuracy.

**Abbreviations:** L = Left; R = Right; KSO = Keep straight on;  
FP = Footpath; K = *Kalderimi* (stone-paved FP or track)

**Transliterations:** ΔΙΟΝΥΣΙΟΥ = *Dionysiou*; ΓΡΗΓΟΡΙΟΥ = *Grigoriou* ;  
ΣΙΜΩΝΟC ΠΕΤΡΑC = *Simonos Petras*; ΑΡCΑΝΑC = *Arsanas*
