

FOOTPATHS OF THE HOLY MOUNTAIN

FROM HILANDAR TO VATOPEDI VIA ESPHIGMENOU

Distance: 12.8 km Journey Time: 3¾ – 4¼ hours

© The Friends of Mount Athos, 2007 – 2018. All rights reserved. – Version 1.5

The short pleasant journey to *Esphigmenou* is through olive groves, vineyards and fields with cypress trees, entirely at low altitude (no more than 70m). Although it consists only of tracks and roads, the peaceful scenery and the views towards the sea and *Milutin Tower* compensate for this. A detour leads to *Milutin Tower*, *Hilandar Arsanas* and the *Cell of Agios Vasilios* on the shore.

The journey on to *Vatopedi*, with fine views and scenery, divides into three roughly equal sections. For the first section, the traditional path has been superseded by a forest road which climbs steadily up a valley and along a ridge. The remainder of the route is almost entirely along historic *kalderimi* or stone paved paths. The second section leaves the road near the top, crosses into the next valley and descends to the sea. The final part of the route follows the coast to the *Monastery of Vatopedi*.

Note: All distances given (in metres) should be taken as approximate. The numbers shown in the form **1** are Waypoints to be found in associated **GPS tracking**. The route described is liable to unpredictable change: for example, forestry work, road or track construction and plant growth may alter the route, or its appearance. Signposts may disappear or new ones appear. The Friends of Mount Athos strives to keep this description correct and up to date but cannot take responsibility for its accuracy.
