

FOOTPATHS OF THE HOLY MOUNTAIN

FROM IVIRON TO PHILOTHEOU

Distance: 5.6 km Journey Time: 2 hours

© The Friends of Mount Athos, 2007 – 2018. All rights reserved. – Version 1.3.1

This journey is an attractive alternative to the one that follows the main road to *Megistis Lavras* and then the ascending path from *arsanas* to *Philotheou*. At the beginning it ascends along path and roads passing close to *Skiti Timiou Prodromou* (also known as *Skiti Iviron*) and then joins the route coming from *Koutloumousiou* and *Karyes*. While the initial and final sections are mainly along traditional *kalderimi* paved stone paths, a long middle section follows roads. But there are fine views from the roads down to *Iviron* and along the adjacent coast.

Note: All distances given (in metres) should be taken as approximate. The numbers shown in the form **1** are Waypoints to be found in associated **GPS tracking**. The route described is liable to unpredictable change: for example, forestry work, road or track construction and plant growth may alter the route, or its appearance. Signposts may disappear or new ones appear. The Friends of Mount Athos strives to keep this description correct and up to date but cannot take responsibility for its accuracy.
