

FOOTPATHS OF THE HOLY MOUNTAIN

FROM PHILOTHEOU TO IVIRON

Distance: 5.6 km Journey Time: 1 ¾ hours

© The Friends of Mount Athos, 2007 – 2017. All rights reserved. – Version 1.2.1

WARNING: *Crossing the bridge close to Philotheou **3** may be difficult or/and dangerous. As of May 2017 the wooden structure of the bridge was rotten, slippery and might give way when stepped on. Anyone crossing the bridge (which is not recommended) must use extreme care and step only where metal beams support the wooden structure. Finding an alternative way to cross stream may be difficult.*

This journey is an attractive alternative to the one that follows the descending path to *arsanas* and then the main road from *Megistis Lavras* to *Iviron*. At the beginning it follows the route to *Koutloumousiou* and *Karyes* but then descends passing close to *Skiti Iviron*. While the initial and final sections are mainly along traditional *kalderimi* paved stone paths, a long middle section follows roads. But there are fine views from the roads down to *Iviron* and along the adjacent coast.

Note: All distances given (in metres) should be taken as approximate. The numbers shown in the form **1** are Waypoints to be found in associated GPS tracking. The route described is liable to unpredictable change: for example, forestry work, road or track construction and plant growth may alter the route, or its appearance. Signposts may disappear or new ones appear. The Friends of Mount Athos strives to keep this description correct and up to date but cannot take responsibility for its accuracy.
