This journey is an attractive alternative to the one that follows the descending path to arsanas and then the main road from Megistis Lavras to Iviron. At the beginning it follows the route to Koukoulooumousiou and Karyes but then descends passing close to Skiti Timiou Prodromou (also known as Skiti Iviron). While the initial and final sections are mainly along traditional kalderimi paved stone paths, a long middle section follows roads. But there are fine views from the roads down to Iviron and along the adjacent coast.

**Note:** All distances given (in metres) should be taken as approximate. The numbers shown in the form 1 are Waypoints to be found in associated GPS tracking. The route described is liable to unpredictable change: for example, forestry work, road or track construction and plant growth may alter the route, or its appearance. Signposts may disappear or new ones appear. The Friends of Mount Athos strives to keep this description correct and up to date but cannot take responsibility for its accuracy.

**Description of Route:**

**Walk (m)** | **And then . . .**
---|---
0 | 1 Turn L out of Philotheou Monastery entrance, with Monastery wall on L. At the end of the wall, bear L on K, passing between buildings ahead.
160 | 2 Cross track and KSO across open area, passing cemetery chapel on R to reach stone wall ahead. FP starts at gap near R end of the wall, immediately to the R of an inlaid red brick cross.

FP soon bears L (signed Iviron, Koukoulooumousiou and Karyes), contains increasing amounts of K and descends into steep valley.
3. Cross bridge with waterfall and fountain on L. Continue on FP (initially K), now climbing steadily up the opposite side of the valley.

4. Emerge at broad track and turn L (signed).

5. Fork R to join road.

6. At next fork, ignore track up L. KSO on road.

7. Cross watercourse and bear R (uphill for a short while).

8. KSO at crossroads (signed Karyes, Iviron and Skiti Iviron), ignoring tracks to L and R.

9. At T-junction, turn R, downhill on road, signed Iviron (L, uphill goes to Karyes).

10. Ignore track from back R. KSO signed Iviron.

11. At fork ignore ascending track to L (signed Timiou Prodromou). KSO downhill (signed Iviron).

Note: If time allows fork L here on track to visit Skiti Iviron (Skiti Timiou Prodromou) Kyriakon in 660m. To continue from Kyriakon towards Iviron, take nice shaded FP that meets the road at 14 below (for these routes look at gpx file).

12. Ignore track from back R.

13. Cross watercourse and bear R.

14. FP from Skiti Iviron Kyriakon joins from back L. KSO still on main track.

15. Turn L off road onto FP in the woods (signed Iviron). FP (K in parts) starts to descend, steeply in places.

16. Arrive at T-junction of FPs. Turn L here.

17. At fork, with garden’s gate at R, turn L, cross short stone bridge and KSO/R across open area / wood yard.

18. Arrive at track. Turn L onto track (signed Philotheou opposite direction) towards former shrine.

19. With former shrine on R, turn R (signed Skiti Timiou Prodromou opposite direction on tree on L) and cross another (much longer) bridge. KSO/R after the bridge. Continue on track (K) under archway, between buildings and garden wall.
Arrive at Iviron Monastery entrance.
