This is a pleasant short route, almost entirely through woods in peaceful scenery. The initial section is along tracks but the second part follows a fantastic descending footpath (stone paved in places).

Once at Karakalou it is possible to continue on footpaths to the Kellia (cells) of Provata (about 45 minutes) or to the Arsanas of the Monastery situated on the Lavra to Iviron main road (about 20 minutes). Although not described here, they may be reached by following the signs close to the Monastery and/or the tracks contained in the gpx file.

**Note:** All distances given (in metres) should be taken as approximate. The numbers shown in the form 1 are Waypoints to be found in associated GPS tracking. The route described is liable to unpredictable change: for example, forestry work, road or track construction and plant growth may alter the route, or its appearance. Signposts may disappear or new ones appear. The Friends of Mount Athos strives to keep this description correct and up to date but cannot take responsibility for its accuracy.
